

Title	Continuing Mitsui Indonesia's Commitment to Prevent Stunting in the Year Ahead
Topic	Mitsui Sustainability, Social Participation
Article date	November 28th, 2023

Mitsui Indonesia has been assisting stunting prevention by donating to Yayasan Usaha Mulia (YUM) since 2022. As second phase of the program Mitsui Indonesia selected more severe situation in five another Posyandu (health centers in rural areas) in West Java. We are supporting 70 pregnant mothers to guarantee a safe pregnancy and 30 mothers with babies below 6 months to keep their nutrition condition as well as a stunting awareness campaign to hundreds of families and other relevant activities. In addition to our desire to participate in this program, ABC Kogen Dairy (AKD), a Mitsui affiliated company, contributed thousands of their yogurt products to moms and pregnant women.
