

For Logistics_[T2]

Truck as a Service

◆ Purpose: Providing trunk transport services using Lv.4 autonomous trucks

- ✓ Aiming to develop Lv.4 autonomous truck technology and now conducting public road verification tests. The project was certified as a Strategic DX Support Program.

◆ Initiatives so far :

- ✓ Phase1 [Jul-20~Apr-21] : Development of autonomous vehicles (passenger cars), market research, and consideration of related businesses
- ✓ Phase2-1: [Jun-21~] : Development of autonomous vehicles (trucks) and investigation of safe driving systems.
- ✓ [Aug-22] : The company 'T2' was established and began public road testing. In May 2024, it started public road tests of Level 2 autonomous driving on the Shin-Tomei Expressway.
- ✓ [Jun-23~Feb-24] : T2 raised 6.07 billion JPY in Series A funding.
