In accordance with our policy, the annual dividend forecast for the year ending March 31, 2022 has been revised up to ¥95 per share (an increase of ¥10 from the previous year, including an interim dividend of ¥45 per share), an upward revision of ¥5 from the original forecast, taking into consideration the Core Operating Cash Flow and Net Income (attributable to owners of the parent) in the forecasts for the year ending March 31, 2022, as well as the stability and continuity of dividend payments.
